20. Cancelled.

21. (Currently Amended) An emulsion foundation makeup composition comprising water, a linear volatile silicone oil, at least one pigment, at least one surfactant, and a cosmetically effective amount of a methoxytryptamine compound having the general formula:

wherein R is a C11 to 19 linear or branched, saturated or unsaturated, alkyl, that may be substituted with one or more hydroxyl groups.

22. (Currently Amended) The composition of claim 21 comprising about 1-95% water and about 0.1-65% oil, all percentages by weight of the total composition.

23. (Previously Presented) The composition of claim 21 comprising about 1-20% by weight of the total composition of pigment.

24. (Previously Presented) The composition of claim 21 comprising about 0.001-30% by weight of the total composition of the methoxytryptamine compound.

25. (Previously Presented) The composition of claim 24 wherein the methoxytryptamine compound R is a C11 to 19 linear or branched chain alkyl.

26. (Previously Presented) The composition of claim 25 wherein the methoxytryptamine compound is palmitoyl methoxytryptamine.

27. (Currently Amended) The composition of claim 21 comprising:

1-95% water,

0.1-65% linear volatile silicone oil,

1-20% pigment, and

0.01-20% one or more surfactants.

28. (Currently Amended) The composition of claim 27 wherein the linear volatile silicone oil is selected from ~~silicone oils, organic oils, and mixtures thereof~~ is of the formula:

wherein n is 0 to 6.

29. (Currently Amended) The composition of claim ~~27~~ 28 wherein the linear volatile silicone oil n is 0-5 ~~oil comprises a silicone oil.~~

30. Cancel.

31. (Currently Amended) The composition of claim 27 further comprising a non-volatile silicone or organic oil ~~wherein the oil comprises a volatile cyclic silicone.~~

32. (Currently Amended) The composition of claim 27 31 wherein the oil is dimethicone a ~~volatile linear silicone having the formula:~~

~~where n=0-6.~~

33. (Previously Presented) The composition of claim 27 wherein the surfactant comprises a silicone surfactant.

34. (Currently Amended) The composition of claim 33 wherein the silicone surfactant is selected from the group consisting of dimethicone copolyol, alkyl dimethicone copolyol~~mer~~ and mixtures thereof.

35. (Previously Presented) The composition of claim 27 further comprising one or more humectants.

36. (Previously Presented) The composition of claim 35 wherein the humectants are present at about 0.1-15% by weight of the total composition.

37. (Previously Presented) The composition of claim 36 wherein the humectant is selected from the group consisting of glycerin, maltose, sucrose, polyethylene glycols, propylene glycol, allantoin, and mixtures thereof.

38. (Previously Presented) The composition of claim 27 further comprising from about 0.01-20% by weight of the total composition of sunscreen.

39. (Previously Presented) The composition of claim 27 further comprising salicylic acid.

40. (Currently Amended) An emulsion foundation makeup composition comprising from about, by weight of the total composition:

1-95% water,

0.1-65% ~~silicone oil~~ decamethylcyclopentasiloxane

1-20% pigment, and

0.01-20% one or more surfactants including at least one silicone surfactant and at least one organic surfactant,

0.1-15% humectant, and

0.001-30% palmitoyl methoxytryptamine.

41. (New) An emulsion foundation makeup composition comprising from about, by weight of the total composition:

1-95% water,

0.1-65% of a mixture of volatile silicone selected from the group consisting of linear volatile silicone, decamethylcyclopentasiloxane, and mixtures thereof; and a volatile paraffinic hydrocarbon,

1-20% pigment, and

0.01-20% one or more surfactants selected from the group consisting of silicone surfactant, organic surfactant, and mixtures thereof.

0.1-15% humectant, and

0.001-30% palmitoyl methoxytryptamine.
